The Story

The full (and painful) guide to nice profits, zero excitement, and 15 minutes of work a day.

**Looking to get rich super fast? —
You're in the wrong neighborhood.**

Looking for easy riches? Zero work? Without thinking? Because a friend told you? This tool is not for you. Go find an Instagram mentor with a rented gold watch charging by the hour

**When will
I be rich??**

Maybe someday.

**In a 4-year backtest,
\$10,000 turned into **\$34,948**.**

**But these are historical tests
of the system. Meanwhile,
old Warren Buffett is still
making more than you.**

How much do I make a day?

1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	-\$971	18	19	20	21
			24	25	26	28

You don't make money a day. Sometimes you make money a month. And sometimes you lose money because Iran and the US decided to play with fire.

Max DD: 14.5% to 19.5%.

Translation: On historically worst days, you are going to lose almost **20% of your portfolio on the way down.**

Stressed? MAN UP!

	Primary (2022-26)	OOS (2018-22)
CAGR	+37.26%	+18.50%
Sharpe	1.51	1.19
Max DD	-14.50%	-19.54%
Win Rate	49.6%	50.4%

This is what is backed by data. No promises, no warranties around your neck.

Wait... Win Rate
of 50%?! I lose
half the time?!

**Yes. Half. That is
called an Edge.**

**The idea isn't to
always be right.
Losing is part of
the game, but winning
the real game is
the fun part.**

**It's not magic,
it's math.**

No. Nice question. But no.

So what is my job exactly?

Routine

Being a robot with human hands. Alert -> Button -> Routine. That's it. Any independent thinking on your part is a bug in the system.

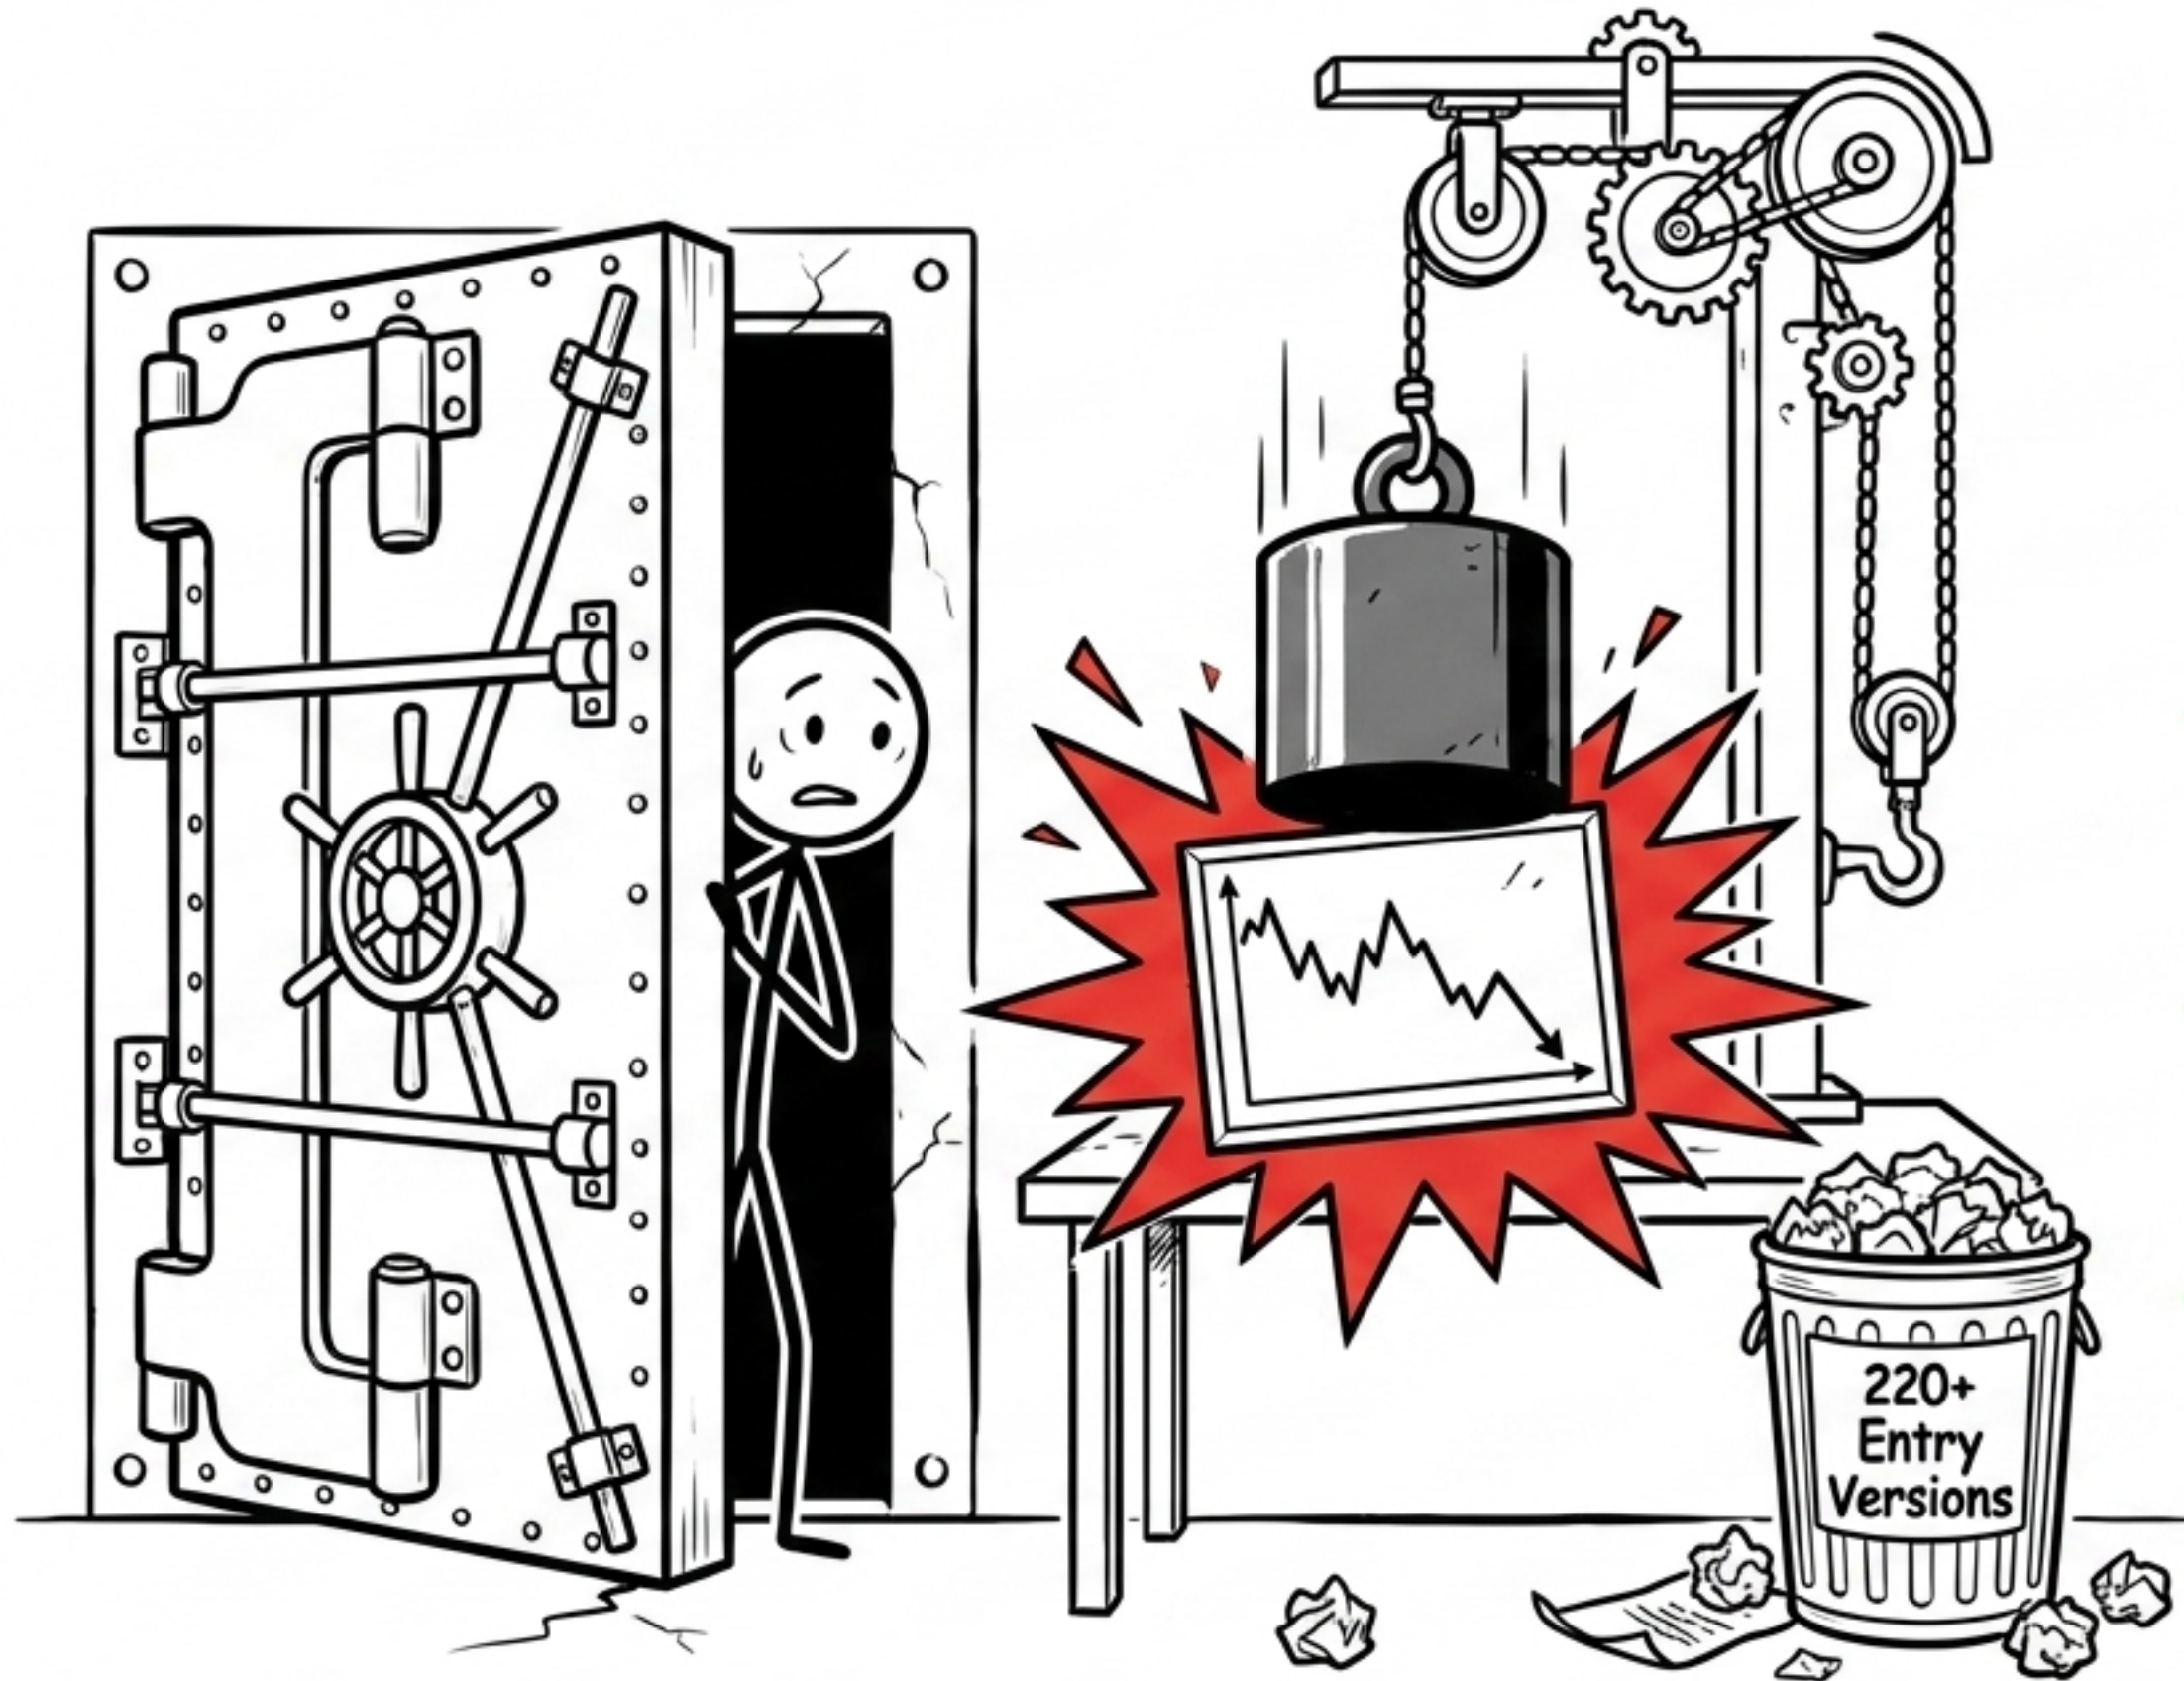

- Average trade is open for 70 trading days (~3.5 months).

- Work time: 10 minutes in the morning.

- Trade volume: Roughly 33 trades a year.

Need adrenaline? Check your pulse or find another hobby, you won't find it here.

How do we know it's not luck?

- ✓ 24/24 trades verified to 4 decimal places (Pine vs Python).
- ✓ A blind external auditor tried to break it. It survived.
- ✓ 140 optimization attempts failed to improve it.

Tested, broken, rebuilt until it was boring to break it again.

**Did one of these? Bypassed the rules?
You killed the system. You are now just a gambler.**

LIFE ITSELF

You will still pay taxes, argue with your partner, and forget to buy milk. But at least you won't get panic attacks from what's happening on Wall Street while you sleep.

Bottom line.

Want magic? Go back to TikTok. Want peace of mind, proven statistics, and mechanical discipline? Welcome. This isn't a course, it's a research tool.
